NOT THE GLORY OF CESAR; BUT THE WELFARE OF ROME.

BY H. B. STACY.

BURLINGTON, VERMONT, FRIDAY, SEPTEMBER 3, 1841.

VOL. XV....No. 13.

MILLINERY & DRESS MAKING.

By Miss S. BRAY.

W^HEAT has commenced in the new building on the east side of Church street, opposite H. Lane's store, and a few rods south of the Church, where every article of Millinery and Dress is to be had, including the making of Bonnets, Caps and Dresses, in accordance with the most popular and New York style, which Fashions are now just received for the season.

Burlington May 26, 1841.

...IMPORTANT CAUTION.

It is a singular fact and one much to be regretted that valerian medicaments, as soon as they become popular, have received the test and approval of a discriminating public, and are consequently, and in a short time, superseded by articles more popular and interesting for the seasons. This has been notoriously the case with all popular and truly valuable medicines for years past, and will probably continue to the year 1840, to come.

The care and contemplation manifested in this way may be well directed, as it will save the money being used by the proprietors of the genuine article, to get their medicines into use and deserved popularity. It is therefore not less than it contributes to the safety of every honest individual in the community to be upon his guard, and never to be deceived.

TRUTH AND HARTLESS INGRATES who thus irresponsibly trifle with health and life.

AN INTERESTING CASE.—Extract of a letter from Mr. G. S. Clay, King-ton, Ulster co., N. Y., to the proprietors. The 9th inst., was delivered.

A recent cure was effected by the Vegetable Physician, Dr. Moore, in the city of New Haven, Conn., and perfect imitation of the genuine INDIAN VEGETABLE PILLS, with the omission of only one word the BOXED VEGETABLE PILLS. The Pills sold by the Rochester physician intended as a fraud and imposition, were well known to be of no value, and have been alone in such exaction of the revenue. This person is tall, blushing with great arterial swallows. He was recently known as a very poor player in Baltimore, under the musical evocation of the name of Dr. Moore, and for five years of age. It is almost beyond a doubt that he is the author of the Pills sold by a Druggist in this city, who have hitherto been extremely unengaged with counter-medicine. As soon as proof is adduced, the fainting and of this nefarious business will be exposed to the community who may share them as they would a serpent.

JACOB MYERS, M. D., of Milford, Conn., May 3, 1837. From Dr. Samuel Morell, to the proprietors of the Vegetable Physician, Balaam.

I am satisfied that the Vegetable Physician is a valuable medicine, and I hope it will be used in every part of the country for the cure of diseases.

THE INDIAN VEGETABLE PILLS are a certain cure for disease in every variety of form, because they do roughly cleanse the stomach and bowels, induce a proper discharge of the lungs, skin and kidneys, and cure every disease not yet known to man.

IT is now more than six years since I was nearly overcome by an affection of the lungs, and my complaint was declared to be incurable by a council of physicians. I was then restored to a good health by the Vegetable Physician, and have ever since been in full possession of my strength.
